

SOLAR WATER HEATING

DATA SHEET

SPECIFICATIONS

Solar hot water units give hot water continuously for some 20 –30 years. Electricity savings can be as high as 85% of your bills with recovery of your investment being as fast as within 6 months to three years. The systems are available for all your domestic, commercial/institutional and swimming pool heating and can heat water to a maximum of 99^oC (*typically 70^oC*)

Solar Water Heating is the most practical and proven technology today.

- It has zero running costs and offers excellent value for money.
- Unaffected by power cuts
- Requires no maintenance.
- Uses safe, clean inexhaustible energy source.
