

STAINLESS STEEL SOLAR HOT WATER TANKS

DATA SHEET

SPECIFICATIONS

Solar World supplies premium grade stainless steel hot water tanks suitable for horizontal and vertical mounting and high pressure operation up to a maximum of 7 bars.

The tanks have a 1.5mm thick inner tank that is ultra-sonically welded, 50mm thick CFC free polyurethane insulation and a stainless steel outer casing with colored powder coated domes for a perfect look and extra long service.

They are effective and reliable products designed to give trouble free operation in an economical and efficient package
